Dear Harold,

This is FYI and also because you might want to respond to Stone's claim. I'm fairly sure the Times-Picayune would print what you have to say if we keep it to about the same length. I thought of responding myself but then it occurred to me that might not be as effective. The peg for you might be Stone's assertion that the script was "printed."

I'm going to send a response to your recent letter one of these days. Needless to say, I disagree heartily with much of it. Thanks for the Russell correspondence.

Sincerely,
Anne

P.S. Garrison's phone was "tapped," Stone says. Is he buying O'Haroia?
